### **\$750\* plus Filing Fees**

Furman Gregory Deptula attorneys will guide your company through the process of how to obtain a strong, registered trademark so you can promote your business with the confidence of a registration. One reasonable flat fee gives your company:

- Preparation and filing of application with U. S. Patent and Trademark Office
- Report out letter confirming application filing
- Advice and consultation on brand strategy

\* Filing fees may vary based on the basis and number of classes in each application. Due to the nature of trademark law and the application process, FGD attorneys cannot *guarantee* successful registration of your trademark. These fees do not include the trademark clearance search which is billed hourly.
